

DLC Industry Advisory Committee Meeting Q2 2023

Wednesday, June 21, 2023

2:00pm – 4:00pm ET

Meeting Minutes

- **Welcome and Agenda Review**
- **General Updates**
 - Application processing status: average end-to-end application processing time was reviewed.
 - Application volume updates were provided for each DLC program area.
 - The DLC is providing advanced support for manufacturers submitting to LUNA.
 - DLC Operations Office Hours are now available, meetings can be scheduled through the MyDLC dashboard.
- **Surveillance Testing Update**
 - The DLC is in the process of its seventh round of surveillance testing, focusing on suspicious products, low CCT products, and randomized selections.
 - The kickoff was in December 2022, and the round will close in June. Round 8 will kick off in July 2023.
- **DLC Controls Summit**
 - September 26-27 in Detroit, MI. The focus will be unlocking the potential of NLCs.
- **NLC 5.1 Technical Requirements Plan**
 - To help reduce confusion in the marketplace, NLC5.1 will be merged with NLC-Local.
 - NLC5.1 will include energy reporting and cybersecurity updates.
- **Product Images for SSL QPL**
 - SSL QPL will have similar guidelines to the Hort QPL.
 - Adding images to product listings will be optional.
- **LightFair Feedback - Roundtable Discussion**
 - The DLC led a discussion on attendees' overall impressions of LightFair 2023.
- **Technical Requirements Optimization Activity**
 - The DLC reviewed the Technical Requirements Optimization project – retrospective review of all past Technical Requirements and QPLs to streamline and improve them for all users.
- **LUNA Activity Update**
 - The DLC provided an update on LUNA program activities, including ordinance map updates, an available sample ordinance, and an upcoming webinar for cities and towns.
 - The DLC led a Q&A focused on best strategies for mitigating light pollution.
- **NLC Savings Potential Update and Strategic Planning for NLCs**

- The DLC reviewed the findings of the DLC's recent NLC savings potential study.
- The DLC led a discussion about NLC-HVAC integration and barriers to market adoption.
- **NLC-Local Program Update**
 - The DLC gave a brief update on progress of the NLC-Local program pilot phase.
- **SSL/NLC Technical Requirements Brainstorm**
 - The DLC provided an update on progress toward DLC6 and reviewed potential topic areas.
